

**Reporting requirement according to paragraph 33 of the REACH regulation
(EC) No. 1907/2006)**

December 10, 2020

Dear Sir or Madam,

As you know, with the CE-labelling and with the declaration of conformity of our medical devices we confirm that the respective products are in compliance with the "essential requirements" of the European Medical Device Directive (93/42/EEC) and the German Act on Medical Devices or already the "essential safety and performance requirements" of the European Medical Device Regulation (EU) 2017/745, which is being implemented for our products step by step till May 2024. Concerning the field of medicinal products we confirm that we comply with the requirements of Good Manufacturing Practice according to the Directive 2003/94/EC and the German Medicinal Products Act.

This includes that our products are designed and manufactured in a way that, when used under the conditions and for the purpose intended, they will not compromise the clinical condition or the safety of patients nor the safety and health of users or third parties. Respective assessments are carried out a.o. in relation with the application of a Risk Management System implemented according to ISO 14971 for medical devices as well as ICH-Directive 9 for medicinal products.

With implementation of the European Chemical Regulation 'REACH' (Registration, Evaluation and Authorisation of Chemicals) we have to inform which products include a substance named in the so called list of candidates in a concentration of more than 0.1 mass percentage. This list was first published on the website of the European Chemicals Agency (ECHA) on October 28, 2008 and has been updated continuously.

Concerning substances published so far in the list of candidates,

- DEHP (Bis(2-ethylhexyl) phthalate, CAS No 117-81-7) and
 - DOTE (2-ethylhexyl 10-ethyl-4,4-dioctyl-7-oxo-8oxa-3,5-dithia-4-stannatetradecanoate, CAS No 15571-58-1)
- are present in some of our products in relevant concentrations of more than 0.1 mass percent. These products are listed in the annexes to this letter.

The affected products of the manufacturer B. Braun Avitum AG, which contain DEHP by more than 0.1 mass percent, are labeled as follows, based on Regulations (EC) No. 1272/2008 (CLP Regulation) and (EC) No. 1907/2006 (REACH Regulation):

Chairwoman of the Supervisory Board:
Anna Maria Braun, LL.M.

Executive Board:
Markus Strotmann (Chairman)
Michael Becker
Dr. Holger Seeberg

Corporate Office: Melsungen
Register Court: Local Court Fritzlar
HRB 11 263
VAT reg.no. DE210567578
WEEE-reg.-no. DE 95624383

Address:
B. Braun Avitum AG
Schwarzenberger Weg 73-79
34212 Melsungen
Germany

With this information letter we comply with the obligation to provide information according to article 33 §1 of the REACH Regulation. This letter will be updated if a substance relevant to our products is added to the list of candidates. Until then this letter retains its validity.

For further questions please do not hesitate to contact us.

Kind regards

B. Braun Avitum AG
i.V. 
Dr. Bettina Teschner
Senior Vice President OM and RA

i. V. 
Dr. Giuliana Gavioli
Head of RA

Annex 1: List of DEHP-containing products

Annex 2: List of DOTE-containing products

Annex 1 to the letter "Reporting requirement according to Article 33 of the REACH Regulation (EC) No. 1907/2006"

List of DEHP-containing products

The following B. Braun Avitum AG products contain more than 0.1 mass percent of DEHP (Bis(2-ethylhexyl) phthalate, CAS No 117-81-7):
